Differential Equations Boundary Value Problems

With boundary value problems we will have a differential equation and we will specify the function and/or derivatives at different points, which we'll call boundary values. For second order differential equations, which will be looking at pretty much exclusively here, any of the following can, and will, be used for boundary conditions.

Boundary Value Problems a SpringerOpen journal

Boundary Value Problems will publish very high quality research articles on boundary value problems for ordinary, functional, difference, elliptic, parabolic, and hyperbolic differential equations. Articles on singular, free, and ill-posed boundary value problems, and other areas of abstract and concrete analysis are welcome.
